Subject: 8/7/14 outage and reported H2S release

Cliff –

We saw media reports of an emergency shutdown and associated venting of produced fluids and associated H2S at/from the PGV facility last Thursday 7 August. Anticipating that we will receive some inquiries about this can you please send me details of the incident, similar to what we have been provided for the incident of March 2013?

Please let me know if you have questions about this request or would like to discuss.

Regards,
Jeremy
